## About Me:

I am a passionate software developer with a strong background in computer science and programming from a young age, specialising in cybersecurity. I am committed to building secure, well-optimised software with a focus on scalability, usability, and best security practices. I have experience assisting local businesses with digital transformation and am adept at explaining technical concepts to non-technical stakeholders. With strong interpersonal skills, I build relationships across diverse backgrounds. I am dedicated to continuous learning and delivering robust products that exceed expectations while protecting user data and rights.

## Qualifications and achievements:

### GCSEs and grades

English Language 6	English Literature 4	Maths 5
Computer Science 5	Graphic Design 5	Chemistry 6
Biology 4	Physics 4	R.E. 6

<b>Level 2 Extended Diploma in Information and Creative Technology</b>	June 2020
	Distinction *

Level 3 T Level in Digital Production, Design & Development	August 2022
Y1: Merit, Y2: Distinction	Overall: Merit

<b>BSc (Hons) Computer Science (Cyber Security)</b>	<b>Graduation: 2027</b>
Year 1: First Class	Projected First Class

## My Stack:

I am highly adaptable and proficient with modern technologies and workflows. The following are the languages/frameworks that I use most frequently:

**Java, C++, PHP, JavaScript, C#, Swift, SQL (SQLServer, MYSQL & MariaDB, SQLite), Python, React.JS, Express.JS, Node.JS, Python**

I have been well-versed in Python since 2011 and have experience in Rust; I have worked on projects in software optimisation, writing MASM scripts and utilising m256 intrinsic functions in C++ for accelerated image processing through vectorisation.

## Employment History:

<b>Customer Team Leader</b>	June 2024 – Present
-----------------------------	---------------------

### [Co-Op Food, Exeter](#)

- Building on my strong interpersonal skills, problem solving and exceptional customer service skills. Helping to deliver value in the local community. Line managing staff & leading by example.
- I decided to step back into my retail career to allow me to focus more time and energy on my continued professional development, and my studies; allowing me to refine my stack and further explore new and emerging technologies and methodologies.

### **Full Stack Developer**

August 2022 – November 2024

**Euro Axle Systems LTD**

- Using Node JS (with express) backend with React JS frontend for the bulk of the development of their site (using JS fetch API for dynamic data-driven pages such as product information pages), including API calls to stripe for PCI/DSS compliant payment gateways.
- Overseeing email marketing campaigns and social media advertisement alongside my main role of software development.

**Full Stack Web Developer**

May 2020 - Present

**Self Employed**

- Working as a full stack developer with various clients on a self-employed basis.
- Working on projects as a contract developer including backend projects with multiple stacks
- Using a variety of backend languages and frameworks including NodeJS, PHP w/ Laravel, Python w/Flask
- Working with several companies of varying stature.

**Software Engineer**

November 2020 – July 2022

**WCLC Phoenix – Children's Charity**

- Working in house on development of a POS system for inventory management, cash administration and sales tracking.
- Building several reporting & BI tools allowing for insight into operational efficiency.

**Customer Services Specialist**

November 2020 – December 2022

**IKEA Exeter**

- Working in customer resolutions. with customers who already experienced issue in a different business operation. Involving building relationships with customers I support, getting them the service they need & restoring their faith in the brand.
- Using my own intuition and working autonomously to find solutions for our customers, keeping in line with company policies and ensuring the best possible outcome for customers.
- Supporting Colleagues with CPD, championing GDPR compliance & fast efficient service.

**Racial Equality Network Chair**

February 2020 – December 2022

**IKEA UK & IE**

- Responsible for liaising with senior national management.
- Supporting co-workers & managers to help create a work environment where diversity is respected.
- Ensuring that tangible action & steps are taken to become actively anti-racist, chairing the creation of an environment where Equality, Diversity & Inclusion are actively celebrated.
